The Logistics and Transportation Review Volume 32 - 1996

Bahram Adrangi, Garland Chow and Kambiz Raffies Passenger Output and Labor Productivity in the U.S. Airline Industry After Deregulation: A Profit Function Approach	389
Scott M. Dennis Estimating Risk Costs Per Unit of Exposure for Hazardous Materials Transported by Rail	351
William L. Garrison and Reginald R. Souleyrette II Transportation, Innovation, and Development: The Companion Innovation Hypothesis	5
David W. Gillen Transportation Infrastructure and Economic Development	38
Patricia K. Hall and William B. Wagner Tank Truck Carrier Selection by Bulk Chemical Shippers: An Empirical Study	231

Donald J. Harmatuck	63
The Influence of Transportation Infrastructure on Economic Development	
Chris Holleyman	93
Industry Studies of the Relationship Between Highway Infrastructure of Productivity	
Manolis G. Kavussanos	161
Price Risk Modelling of Different Size Vessels in the Tanker Industry Using Autoregressive Conditional Heterskedastic (ARCH) Models	
Bilkis R. Khanam	251
Highway Infrastructure Capital and Productivity Growth: Evidence from the Canadian Goods-Producing Sector	
Christopher C. Klein, Reuben Kyle and Jennifer J. Wilgus	283
Capture Vs. Compromise: Entry Regulation of Intrastate Trucking	
Ashish Lall and Richard Tay	119
Private Provision and Financing of Infrastructure in ASEAN	
Xinging Li	301
Policy and Administrative Implications of the China Maritime Code 1992	
Fernard Martin	207
Calculating the Public Interest in the Merger of Container Transportation Firms: Canada Maritime Services and Cast Marine Holdings	
James F. Nolan	319
Determinants of Productive Efficiency in Urban Transit	

Hayri Onal, Benito M. Jaramillo and Michael A. Mazzocco Two Formulations of the Vehicle Routing Problem: An Empirical Application and Computational Experience	117
Tae Hoon Oum and W.G. Waters II A Survey of Recent Developments in Transportation Cost Function Research	423
Baldev Raj The Trend Behaviour of Capital Outlays for Highways in the United States for All Levels of Government	77
Dale S. Rogers, Patricia J. Daugherty and Alexander E. Ellinger The Relationship between Information Technology and Warehousing Performance	389
Wayne K. Talley Linkages Between Transportation Infrastructure Investment and Economic Production	145
Wayne K. Talley Determinants of Cargo Damage Risk and Severity: The Case of Containership Accidents	377
Rex S. Toh, William G. Browne and Michael Y. Hu Frequent-Flier Programs: A Comparative Study in the American and Australian Experience	119
Farok Vakil and Manuel G. Russon Enplaned Passenger Flight Frequency Functions for Short Haul Air Transport Passenger Flows	269
Book Review
